

END USER LICENSE AGREEMENT

IMPORTANT: PLEASE READ THIS LICENSE CAREFULLY BEFORE USING THIS SOFTWARE.

1. DEFINITIONS

1.1 End User License Agreement (“EULA”): This EULA specifies the terms under which a licensee (“End User”) is allowed to install and use the Software (as defined below) supplied by dbosoft GmbH and any associated third party software.

1.2 “the Software”: dbosoft proprietary computer software products

1.3 “Transaction” and “Transaction Document” have the following meanings: “Transaction(s)” any individual order form or purchase order, in electronic or written form, for the license of Software that is accepted by both dbosoft and End User.

A Transaction may be initiated and implemented by any entity that is directly or indirectly a party to it, including End User, dbosoft, or authorized third party distributors, dealers, and/or other resellers of the Software. A Transaction Document may contain usage, business, legal and other terms and conditions agreed to by the parties. In the event of a conflict or inconsistency between the terms and conditions of this EULA and those set forth in a Transaction Document, the terms and conditions of the Transaction Document will govern and control.

2. GRANT OF LICENSE

When the Software is delivered to End User as part of a Transaction and conditioned on compliance with the terms and conditions of this EULA and End Users Terms & Conditions, dbosoft grants to End User, and End User accepts, a non-exclusive, non-transferable license to use the Software.

The License is perpetual, unless the Software is delivered to End User as part of a Transaction on a non-perpetual basis for a defined period, in such case, the End User’s right to use such Software will cease on the end date of the defined period.

End User and dbosoft intend and agree that the Software is being licensed not sold, and that the words “purchase”, “sold” or similar or derivative words are understood and agreed to mean “license” and that the word “End User”, “Customer” or similar or derivative words is understood and agreed to mean “Licensee.”

If End User does not agree to or accept the terms of this EULA, End User may not access or use the Software.

2.1 Evaluation license

If the Software the End User has received pursuant to this EULA is used for evaluation and demonstration (“Evaluation”), the license to the Evaluation Software is limited to use strictly by End Users employees and contractors solely for End Users internal, non-productive evaluation purposes and is further limited to a period not to exceed ninety (90) days from the date End User acquires the Evaluation Software. End Users rights under this EULA will terminate immediately upon the earlier of (a) the expiration of the evaluation period, or (b) such time that the Dbosoft purchases a license of the Software pursuant to a Transaction Document. Dbosoft reserves the right to terminate End Users

license to Evaluation Software at any time in its sole discretion. End User agrees to return or destroy its copy of Evaluation Software and User Documentation upon termination of this EULA for any reason. Dbosoft is licensing the Evaluation Software on an “as is” basis and disclaims any warranty or liability obligations of any kind with respect to Evaluation Software, whether express or implied, to End User.

2.2 License Keys

End User acknowledges that the Software may use a license key mechanism and that use of the Software requires authorized and valid license keys (“License Keys”). End User agrees not to use unauthorized license keys or otherwise circumvent dbosoft license key mechanisms for its Software. If a valid Transaction Document exists dbosoft will provide the License Keys for the applicable Software on End Users request. Unless otherwise mutually agreed in writing, End User is responsible for installing the Software and License Keys in accordance with the User Documentation.

2.3 Use restrictions

End Users license to use the Software is limited to the number of licenses purchased.

The Software may be used by End User solely for its own internal business on all owned SAP installations.

End User may make one copy of the Software and the User Documentation for backup purposes. Any such copies of the Software or the User Documentation shall include Licensor’s copyright and other proprietary notices. Except as authorized under this paragraph, no copies of the Program or any portions thereof may be made by End User or any person under End Users authority or control.
